1) Welcome by Marcia Leventhal

The language used for the meeting will be English and German, and when necessary, French will be used. An attendance register was in circulation in the room.

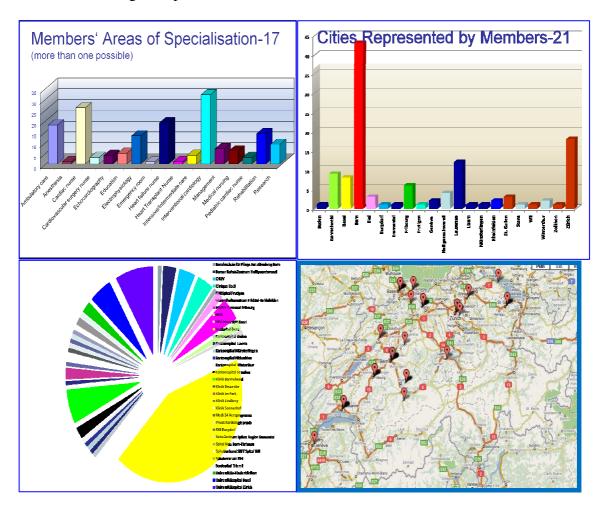

2) Membership of the Working Group

There are currently 128 members registered in the Working Group. Membership in the WG-CNAP is the fastest growing working group of the SSC (SGK). Membership has increased from:

2007: 30 members 2008: 97 members 2009: 128 members

The more members, the stronger our voice!

The members are distributed primarily in the German and French-speaking areas of Switzerland. The south-eastern region (Ticino) is not yet represented, and this will be a goal in 2009-2010, to increase membership in all regions of Switzerland.

If you know nurses working with cardiovascular patients, please tell them about our Working Group!

3) Present Board of the Working Group

President: Marcia Leventhal Vice President: Nicolas Masson

Treasurer: Secretary:

Former President:

Representatives of Interest Groups:

- Christine Mathis: Interest Group for Electrophysiology / Arrythmia (IG-AR)
- Eggimann Brigitte: Interest Group for Heart Failure Nurses (IG-HIB)

4) Position in the Swiss Society of Cardiology

The Working Group is part of the Swiss Society of Cardiology and is represented in the CCNAP of the European Society of Cardiology.

There are currently 2 Interest Groups in our Working Group:

Heart Failure and Electrophysiology/Arrythmia.

We encourage new groups to be created based on the interests of the members (such as interventional cardiology, ambulatory care, paediatrics, etc)

5) Our position in the European Society of Cardiology

Lehrgang Kardiologie für Pflegefachpersonal

Das kardiologische Angebot wurde speziell in den letzten Jahrzehnten mit immer besseren diagnostischen Untersuchungsmöglichkeiten, komplexeren und vielfältigeren Therapien erweitert und diese Entwicklung schreitet fort. Zudem sind in den letzten Jahren spezialisierte Abteilungen und Zentren im Bereich der Kardiologie entstanden und haben sich etabliert. Die Kardiologie ist nun nicht mehr nur ein Fachbereich der inneren Medizin, sondem hat sich zu einem eigenständigen Fachbereich der inneren Medizin,

Die wachsenden Ansprüche an die Pflege sowie die Nachfrage aus der Praxis, insbesondere auch jene der Pflegefachpersonen aus dem Fachbereich Kardiologie, haben uns bewogen für diplomierte Pflegende einen Lehrgang in Kardiologie zu entwickeln.
